

Personal coverage

Personal coverage, subject to approval, is optional workers' compensation coverage available to:

- proprietors,
- partners in a partnership,
- directors of a corporation or a society, or
- members of an association, board, authority, commission or foundation.

To register for personal coverage, you first have to have a WCB account. Signing up is easy. Go to www.wcb.ab.ca/application to get started.

Personal coverage is flexible, and once in place, it can be changed at any time. It automatically renews every year on Dec. 31.

Benefits of coverage

The benefits of personal coverage include:

- **Protection against loss of employment income.** If your injury or illness is work related and you are unable to work, you will receive compensation for lost earnings.
- **Comprehensive medical and rehabilitation services.** With no preset limits, these services help you recover and return to work.
- **Risk management.** Workers' compensation is the only insurance that offers protection from lawsuits for you and other covered parties.
- **A smoother bidding process.** Personal coverage is a requirement of some contracts.

Coverage amount

It is important to base the coverage you buy on your actual employment earnings (before tax, CPP and EI deductions). This amount will be used to determine the compensation you receive in case of a work-related injury.

Purchasing the minimum amount of coverage may initially reduce your costs, but the benefits you receive, if injured, may not be enough to replace lost income.

If your income exceeds the maximum assessable earnings available (\$104,600 in 2024), you should also ensure that you carry additional private insurance to make up the difference not covered by WCB.

If injured, you may need to verify your self-employment earnings through records such as T4 and T5 slips, tax returns (T1 General), income and expense statements or payroll stubs.

If your records do not match the amount of coverage purchased, compensation benefits will be based on the lesser amount of:

- coverage purchased,
- guaranteed coverage amount (if applicable) or
- verified earnings to the minimum amount (\$33,400 for 2024).

Please see the illustration on page three for more information.

If you're a new business owner, in order to substantiate your personal employment income, we will request a copy of the previous year's tax information.

If you don't have a history of self-employed income, you may wish to purchase minimum coverage or [guaranteed coverage](#) until your business is established and you're able to provide proof of personal employment income.

Please note dividends may be considered earnings for directors when they are paid in lieu of salary. Shareholder loans are not covered as employment income and corporate tax returns aren't acceptable as proof of earnings.

Guaranteed Coverage Amounts are offered in some industries without earnings validation. Please contact WCB to discuss the details. See our [Guaranteed Coverage fact sheet](#) for more information.

Cost of personal coverage

Cost will vary based on the amount of coverage you purchase and the industry you operate in. The minimum annual premium on a WCB account is \$200.

Compensation amounts

Compensation benefits depend on the level of coverage purchased. You may choose an amount between the minimum and maximum.

The following chart shows the approximate weekly benefits for selected levels of coverage.

2024 personal coverage levels	Approximate weekly compensation rate
\$33,400 (minimum 2024)	\$481.57
\$35,000	\$500.06
\$40,000	\$559.88
\$45,000	\$619.70
\$50,000	\$679.52
\$55,000	\$737.78
\$60,000	\$792.86
\$65,000	\$848.67
\$70,000	\$907.42
\$75,000	\$967.40
\$82,800	\$1,060.96
\$86,700	\$1,107.75
\$92,300	\$1,174.93
\$95,300	\$1,210.91
\$104,600 (maximum 2024)	\$1,322.47

For 2024, \$33,400 is the minimum amount of coverage (those earning less than this should choose this amount). \$104,600 is the maximum amount of wage loss coverage available (if your income exceeds this amount, you should buy additional private insurance coverage).

Owner-operators of mobile industrial equipment

If you own and operate mobile industrial equipment, you may wish to buy coverage for an amount above what you would draw as personal income from your business.

As there are several ways to draw income from a business, such as T4'd wages, dividend payment or shareholder loans, WCB will consider different approaches to setting your compensation rate.

WCB considers the gross income earned from operating the piece of equipment when setting a compensation rate. The compensation rate can be set based on 25% of this income (or 50% for portable welders), if this amount is greater than the owner-operator's personal, taxable income.

Example: The owner-operator of a tractor/trailer unit has a yearly gross business income of \$200,000. He draws a wage of \$40,000 per year in personal, taxable income. This owner-operator could purchase personal coverage up to \$50,000 (25% of \$200,000) to protect himself against the potential loss of employment income.

If the PC holder draws a T4 salary from their company, it is reported on line 10100 of the T1 General. The PC holder must submit a copy of their T4 from their company to verify these employment earnings.

Dividends, shareholder loans and other sources of investment income are not considered employment income.

If the PC holder does not draw a T4 salary, we use their Business Income (after expenses) which is line 13500.
