DENTURIST ASSOCIATION OF ALBERTA **Fee Guide Development & Negotiation Committee**

2020 Recommended Fee Guide

THIS GUIDE OF SUGGESTED FEES IS PUBLISHED BY THE DENTURIST ASSOCIATION OF ALBERTA FOR THE BENEFIT OF INSURANCE COMPANIES AND THIRD-PARTY BILLING.

This guide covers professional services rendered by a Denturist.

SERVICE

The quality of services offered by a denturist contributes to the improvement of a patient's oral health. The value of this service is in its effectiveness in replacing tooth function while preserving the oral tissue supporting the prosthesis. In providing a removable oral prosthesis various steps and technical procedures are necessary in order to assure the highest quality of service possible. Many different types of removable oral prosthesis can be fabricated; therefore, the fees will vary according to the technical and clinical procedures involved and the degree of skill required.

DESCRIPTION of PROCEDURES for STANDARD COMPLETE or PARTIAL DENTURES

- a) Impressions
- b) Bite Registration
 - to include centric and vertical relations
 - tooth selection
- c) Try-In
 - wax try-in
 - check centric occlusion, rest and occlusal dimensions
 - check aesthetics and phonetics
 - fitting of cast framework (if necessary)
- d) Insertion
 - verify centric movement
 - check for denture base extension and pressure spots
 - provide patient denture education

DESCRIPTION of PROCEDURES for PRECISION EQUILIBRATED/COMPLEX COMPLETE or PARTIAL DENTURES

- a) Impressions
 - preliminary and finals
- b) Bite Registration/Occlusal Records
 - face bow transfer or equivalent
 - semi/fully adjustable articulator
 - centric relation may be determined by either Pin Tracer technique (Central Bearing device) or Bite Block technique
 - establish vertical relation
 - tooth selection of premium quality teeth

- c) Try-In
 - includes wax try in
 - verify centric and eccentric occlusion
 - verify aesthetics and phonetics
 - verify vertical relation

- d) Insertion
 - verify centric and eccentric relations
 - check for denture base extension and pressure spots
 - provide patient denture education

Note: Clinical protocol above is a minimum standard if procedures and or materials are modified then the fees should be adjusted accordingly

FEES CHARGED

The fees for procedures described are not obligatory; Each Denturist is expected to determine independently, the fees that will be charged.

This Recommended Fee Guide is submitted as a guide only and not as a minimum or maximum tariff. The fees listed herein are intended as suggestions of appropriate fees for routine situations and where the services provided are easier or greater, or less or more time is required than routine, it is suggested that the fees should be adjusted accordingly.

THE DAC PROCEDURE CODES

Alberta is licensed by The Denturist Association of Canada (The DAC) to reproduce, use, display and distribute The DAC Procedure Codes in this Fee Guide. The DAC Procedure Codes master list, as provided to Alberta, has been developed and maintained and is owned by The DAC, including any and all intellectual property rights therein (©1990 – * The Denturist Association of Canada, All Rights Reserved). As a member of the Denturist Association of Alberta, you are authorized and licensed to use this Fee Guide for your denturist services.

The procedure codes for all procedures are listed in two main categories:

- Complete Dentures and Partial Dentures

Subsequently, each main category is further subdivided into different types of dentures and specific procedures, i.e.; relines, rebases, immediate, etc.

- The first digit refers to complete or partial dentures
- The second digit refers to procedure – new dentures, relines, rebases, etc.
- The third digit refers to type of denture – standard, precision equilibrated/complex, transitional etc.

- The fourth digit refers to maxillary, mandibular
- The fifth digit refers to specialty procedures

DENTURIST UNIQUE IDENTIFICATION NUMBER (UIN)

THE UIN IS A NUMBER THAT IS ASSIGNED TO EACH DENTURIST IN CANADA. THIS UIN IS ALWAYS 8 DIGITS LONG - PLEASE FIND BELOW AN OUTLINE OF THE STRUCTURE OF THE UIN.

<i>Position</i>	<i>Description</i>
1	always starts with the number 8 meaning dentist
2 and 3	Province: 01 (NFLD) 02 (NS) 03(NB) 04(PEI) 05(QC) 06(ON) 07(MB) 08(SK) 09(AB) 10(BC) 11(NWT) 12(YK) 13(NV)
4	Will either be a 1 (meaning they are licensed for only complete dentures) or a 2 (meaning they are licensed for complete dentures and partial dentures)
5/6/7 and 8	Are personal and unique to each dentist

SUBMITTING ESTIMATES

It is recommended that a treatment plan should be provided to the patient in advance of treatment being rendered and the patient should receive written confirmation of carrier liability before treatment begins.

Please keep the following points in mind when submitting estimates (pre-determinations):

- do not enter a date of service on estimates, it leads the insurer to believe that a service has been completed
- do not sign an estimate form
- do not submit a claim and an estimate on the same form (ex. If you are submitting a claim for a new patient exam and an estimate for new dentures, submit the claim for the exam on one form and the estimate for new dentures on a second form)
- clearly indicate on the form for pre-determination or estimate only
- if you receive a cheque in reply to a pre-determination, do not cash the cheque and immediately advise the insurance company about the mistake

*****Important Note: Claims cannot be submitted until after a service has been provided*****

ABBREVIATIONS

G: Gold **L:** Lab Disbursement/Lab Fee

E: Extra Expense **B.R.:** Best Rate **P:** Parts and components

S.C.: Service Charge/Independent Charge

ARM: Additional Repair Materials to be used in conjunction with repairs as required.

LLLT: Low Level Laser Therapy in conjunction with adjustment

Mouthguard type 3: vacuum formed

Mouthguard type 4: pressure laminate or injectable elastic acrylic resin

Charge fair and reasonable fees to patients which are reflective of the treatment(s) provided and with consideration of the Denturist Association of Alberta Recommended Fee Guide

LABORATORY DISBURSEMENTS

When completing dental insurance claim forms, this code correlates to either commercial (third party) or in-house lab fees that are not otherwise listed in the Fee Guide.

Laboratory Procedures: **98888 (DAC Code)**

(Fees submitted using this code are required to be Lab Fee only. There is not a Professional Fee component to this code)

EXAMINATIONS***All Examinations Require Appropriate Charting of Findings***

IMPLANT SUPPORTED FIXED PROSTHODONTICS					
Section 14 of the <i>Denturists Profession Regulation</i> indicates that regulated members may perform any or all of the following restricted activities in the practice of denturism:					
(a) prescribe or fit					
(i) a removable partial or complete denture, or					
(ii) a fixed or removable implant supported prosthesis that replaces 2 or more teeth.					
Implant supported fixed bridges (each abutment, each retainer and each pontic, constitutes a separate unit in the bridge, with a separate code number).
